

Micropipette Stand

Cat No. MPS-M-6
MPS-M-1

MOLEQULE-ON[®]

Description

MOLEQULE-ON micropipettes stands is designed to hold most of the well-known brand pipettes. It comes in one position and 6 positions format to occupying various range of micropipettes. The single position stand can hold wide range of electronic single channel and multichannel pipettes. These stands are made up of acrylic material that is very durable, easy to clean and can be used for years. The upright design allows users to fit this storage efficient unit anywhere on the benchtop. The base of stand is skid resistant to prevent it from sliding on benchtop. The stand can be split apart to conveniently pack in compact box and can be assembled back very easily.
